Sir/Madam:

I refer this correspondence to you in an effort to stymy or at least to greatly reduce SC EG&G's effort to request another rate-hike.

What other corporations can expand and continually take on projects and receive almost all of the finance from their customers. Especially when they have no choice if they want to stay warm in the winter and have their lights on. The executives at Scaana are paid way above the realistic level of compensation.

We are simply middle class residents of Lexington but we see many of friends and family trying to figure out how to handle

The increased amount the SC086 group is proposing.

Please at this time, just one time
Don't give them a "pass" at the
Commission. You have held their
hand long enough - think of the
residents at the time, that are
hurting from the economic crunch.

Sincerely

Note: I presently own 4000
shares of Carolina Stock. I'm
asking for fairness at the hearing
by the Commission in the near future.
